Personal Statement: First, I am a Kidney Failure patient on in center hemodialysis. I have been through the process of coming to terms with kidney disease and choosing my treatment. As good as my doctor is, I still felt abandoned in the sea of information. Second, I am an RN who has worked in Psychiatric Nursing for 36 years. I have knowledge about the ways in which people process emotionally and their needs during major life changes.

Hobbies/Interests: Traveling; Reading; Being an aunt; Church choir; Disneyland

Why this project is important to me: I want no other patient to go through what I went through.
