

**Name:** Chelsie Hauer, MPH

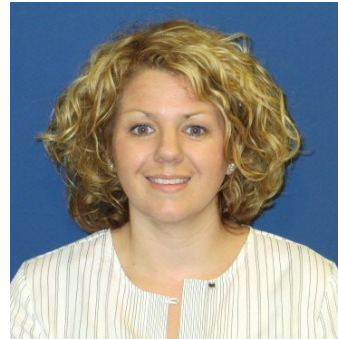

**Project Role:** Project Director (Geisinger)

**Affiliation:** Geisinger Health System

**City, State:** Danville, Pennsylvania

**Phone:** 570-214-2038

**Email:** clhauer@geisinger.edu

**Personal Statement:** Is a Research Development Manager II within the Center for Clinical Innovation (CCI) in the Institute for Advanced Application at Geisinger Health System. The Center for Clinical Innovation seeks to design, implement and evaluate new applications and care delivery models that provide high quality, patient-family-centered care. Chelsie earned her Master of Public Health degree from Drexel University. She joined Geisinger Health System in May 2006 where she held positions within the Center for Health Research and the Office of Sponsored Projects. In her current role, she is responsible for overall project management; including the development, implementation, and evaluation of health information technology (HIT). Chelsie is responsible for serving as a lead role for the design and application of processes/tools and products and has overall accountability for the quality and delivery of projects that align with the research aims and with strategic imperatives. Chelsie has experience in formative/market research strategies that enhance product development and serves as a Patient and Family Advisory Group liaison. She has deep experience with stakeholder management and sustains internal relationships with Geisinger patients, their families and the local community. Additional duties include proposal preparation, financial management and contract negotiation.

**Hobbies/Interests:** Travel; Spending time with family

**Why this project is important to me:** To help to deliver health information technology solutions to patients and their families to aid in coordinated care and informed decision making.
