

Name: Peter Woods, BS

Project Role: Stakeholder Co-Investigator

Affiliation: Patient/Caregiver

City, State: Hartsdale, New York

Phone: 917-612-3189

Email: pswoods@verizon.net

Personal Statement: I am a kidney transplant patient. I was on dialysis for five years. I know what it is like to be on dialysis both Hemo and Peritoneal. I think with my experience as a dialysis patient I know what the effects are of kidney disease. I also am aware of what improvements are needed in our health care system to provide better care and outcomes of kidney disease patients. I am willing to help the research team in any way possible. I am very excited that I can make a difference in improving kidney patient care.

Hobbies/Interests: Fishing; Volunteering for peer suicide prevention program for NYPD

Why this project is important to me: This project is important to me so we can help other kidney patients with their care. This can be done through information and education. I would like to see the secrecy removed from Dialysis and Transplantation.
